CANNED GREEN BEANS AND CANNED WAX BEANS; RECOMMENDED DRAINED WEIGHT

On December 6, 1952, a notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 11124) regarding a proposed amendment of the United States Standards for Grades of Canned Green Beans and Canned Wax Beans. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the following amendment of United States Standards for Grades of Canned Green Beans and Canned Wax Beans is hereby promulgated under authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621, et seq.) and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451; 82d Cong., approved July 5, 1952).

Section 52.165, paragraph (e) Table No. I, is amended to read as follows:

(e) Recommended drained weight.

[Ceiling Price Regulation 22, Amdt. 11 to Supplementary Regulation 7]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

SR 7—MODIFICATIONS AND ALTERNATIVE PROVISIONS FOR MANUFACTURERS OF CHEMICALS

COPPER CHEMICALS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 11 to Supplementary Regulation 7 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Supplementary Regulation 7 permits manufacturers of copper chemicals who use primary copper in their manufacture to adjust their ceiling prices established under Ceiling Price Regulation 22 for those copper chemicals to reflect the increased cost of foreign copper. The copper chemicals covered are those containing 10 percent or more by weight of copper.

In May 1952 the price of Chilean copper was increased to 36½ cents per pound pursuant to an agreement between the United States and Chilean governments. As a result of this increase, the Director of Defense Mobilization directed the Office of Price Stabilization to increase ceiling prices of brass mill and mill wire products to reflect 80 percent of the increased cost of copper. He also directed that comparable treatment be given other primary users of foreign copper. In accordance with that directive, ceiling prices for brass mill and wire mill products were increased on the basis of 3.84 cents per pound of copper contained. This was accomplished by amending CPR 68 and CPR 110. Also, producers of products in which primary copper is used and whose ceiling prices were established under the General Ceiling Price Regulation were permitted to increase their ceiling prices by the same amount under SR 125 to the General Ceiling Price Regulation. This provided relief to producers of some copper chemicals, such as the copper oxides, which are under the General Ceiling Price Regulation. However, most manufacturers of copper chemicals have their ceiling prices established under Ceiling Price Regulation 22. This Amendment to SR 7, therefore, affords manufacturers of copper chemicals whose ceiling prices are established under CPR 22, the same treatment afforded by SR 125 to the GCPR to those producers covered by that regulation.

This amendment to SR 7 permits manufacturers of copper chemicals who use primary copper and not secondary copper in the manufacture of these chemicals to increase their ceiling prices by 3.84 cents per pound of copper contained.

If the manufacturer uses both secondary copper and primary copper, he computes the percentage of primary copper to the total amount of copper which he used during the third quarter of 1952 in the manufacture of copper chemicals and then multiplies this by 3.84 cents per pound of copper contained to determine the increases in ceiling prices. The adjustments are limited to copper chemicals containing at least 10 percent copper by weight since the effect of the increase in the price of foreign copper on the cost of chemicals containing less than that amount of copper is insignificant.

Of the total amount of copper used by chemical manufacturers in the manufacture of copper chemicals only a relatively small amount of it is primary copper. For this reason it is believed that this regulation will have little effect on the level of prevailing prices for copper chemicals.

In the formulation of this regulation, there has been consultation with industry representatives, including trade association representatives, to the extent practicable and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Supplementary Regulation 7 to Ceiling Price Regulation 22 is amended by adding section 12, which reads as follows:

Sec. 12. *Copper chemicals.* (a) This section permits you to increase your ceiling prices established under Ceiling Price Regulation 22 of copper chemicals containing 10 percent or more by weight of copper which you manufacture to the extent that you use primary copper in the manufacture of these chemicals.

(b) If you manufacture a copper chemical containing at least 10 percent by weight of copper and the ceiling price for your sale of the chemical is established under Ceiling Price Regulation 22, and if you use primary copper and do not use secondary copper in the manufacture of the chemical, your ceiling price for this chemical is your ceiling price under Ceiling Price Regulation 22 increased by an amount equal to 3.84 cents per pound of primary copper contained in the chemical.

(c) If you manufacture a copper chemical containing at least 10 percent by weight of copper and the ceiling price for your sale of the chemical is established under Ceiling Price Regulation 22, and if you use both primary copper and secondary copper in the manufacture of the chemical, your ceiling price for this chemical is your ceiling price under Ceiling Price Regulation 22 increased by an amount equal to the percentage of primary copper to the total amount of copper used by you during the third quarter of 1952 in the manufacture of copper chemicals multiplied by 3.84 cents per pound of copper contained in the chemical.

(d) For the purposes of this section: "Primary copper" means all copper metal refined by any process of electrolysis or fire refining to a grade and in a form suitable for fabrication, and shall include all such metal produced from domestic or imported ores, concentrates, or other copper bearing material and "secondary

copper" means any copper other than primary copper.

Effective date. This amendment shall become effective February 3, 1953.

[General Ceiling Price Regulation, Amdt. 2 to Supplementary Regulation 113]

GCPR, SR 113—PRODUCERS OF ALUMINUM MILL PRODUCTS

ALTERNATIVE METHOD OF ADJUSTMENT

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to Supplementary Regulation 113, to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

On August 4, 1952, OPS granted ceiling price increases of one cent a pound for producers of aluminum pig and ingot and of five percent for producers of certain listed primary aluminum mill products.

By Amendment 1 to SR 113 of the GCPR effective January 22, 1953, an additional amount was permitted, consisting of an additional $\frac{1}{2}$ cent on aluminum pig and ingot and an additional 4 percent on listed primary aluminum mill products. Amendment 1 to SR 113 stated that the price change would be calculated by increasing the GCPR ceiling price on pig and ingot by $1\frac{1}{2}$ cents and the GCPR ceiling price on the mill products by 9.2 percent. Immediately after the amendment had been issued OPS was informed by several of the primary aluminum producers that they had already recalculated their ceiling prices for aluminum mill products by adding 4 percent to the levels provided under SR 113 rather than by applying 9.2 percent to GCPR levels.

As a result of the rounding provisions of SR 113, the ceiling prices so calculated will differ in a few cases by small amounts from the ceiling prices permitted under Amendment 1. In order to avoid costly recalculation by the producers, this amendment permits producers of aluminum mill products to determine their new ceiling prices either by adding 9.2 percent to their GCPR prices or by adding 4 percent to the prices established under SR 113. Whichever method is adopted must be used by each producer for all the products affected.

In view of the nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

Section 2 (b) of Supplementary Regulation 113 is amended to read as follows:

(b) *Other listed aluminum products.* If you are a producer of the aluminum products listed in Table A, your ceiling price for these products is your ceiling price determined under the General Ceiling Price Regulation plus 9.2 percent of your ceiling base price and extras as determined under the General Ceiling Price Regulation or, in the alternative, your ceiling price on January 21, 1953, plus 4 percent of such ceiling price and extras. Whichever method of pricing you select must be used for all the products affected. You may round any ceiling price so determined so that it will be expressed in the nearest cent or fraction of a cent you normally employ. If you elect to round any such ceiling price you must round all such ceiling prices so as to reflect decreases as well as increases.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective January 28, 1953.

GOR 5—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER DURABLE GOODS AND RELATED COMMODITIES

SUSPENSION OF TOYS AND GAMES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this amendment to General Overriding Regulation 5, Revision 1 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 5, Revision 1 extends the coverage of Article III to suspend price controls at all levels of distribution on toys and games.

This action is being taken in line with the policy of suspending or otherwise relaxing price controls on commodities whose selling prices are substantially below ceilings and are not expected to reach ceiling prices in the foreseeable future. In the judgment of the Director, price controls on the commodities covered by this amendment are not required at this time in order to carry out the purpose of the Defense Production Act of 1950, as amended. However, all records which were required to be prepared and preserved under the applicable ceiling price regulations in effect prior to this suspension must continue to be preserved.

Current selling prices of these commodities are in the main below the peak prices for each category of toys and games. For example, according to data from the Bureau of Labor Statistics, sponge rubber balls declined 13.3 percent from September 1951 to September 1952; electric toy trains declined 7.9 percent from February 1952 to September

1952; mechanical toys declined 8.3 percent from April 1951 to September 1952. The decline from ceiling prices is even greater. According to an index of manufacturers' ceiling prices compiled by OPS, rubber balls and balloons are currently selling at 19.8 percent below ceiling prices; dolls are 11.9 percent below ceiling; mechanical toys are 8.7 percent below ceiling; stuffed animals are 10.9 percent below ceiling. Other major categories have shown fairly comparable declines from ceiling levels.

The OPS composite index shows that current selling prices of all toys and games are, on a weighted average basis, 8.23 percent below ceiling prices. Retail prices reflect this decline in prices at the manufacturers' level.

Studies made by the Office of Price Stabilization indicate that toy manufacturers have no backlog of unfilled orders other than that which is seasonal, and that the prices of most raw materials used in the toy industry have stabilized below the levels existing at the time of the issuance of CPR 22. There are no indications of increases in raw materials costs in the foreseeable future which would raise prices of toys to the level where reconrol would be necessary.

In order to keep informed of the trend of prices, a composite index will be maintained of the prices of the principal products of the toys and games industry based on data to be supplied by manufacturers. In the index the present ceiling will be taken as 100.

The Director may at any time terminate or modify this suspension if he determines that such action is necessary in the interests of the stabilization program. In any event this suspension will be terminated if the composite index reaches the figure of 96. This index is now approximately 92.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Article III of General Overriding Regulation 5, Revision 1, is hereby amended by adding new section 110 to read as follows:

Sec. 110. Toys and games. The following toys and games. (These articles are described, for convenience, in terms of the categories named in CPR 7—Retail Ceiling Prices for Certain Consumer Goods. However, all sales of the articles described, at all levels of distribution, are suspended from price control regardless of whether their ceiling prices have been determined under CPR 7 or any other regulation.)

Category 1050—Dolls.

Among the articles included are:

- Dolls.
- Doll accessories.
- Stuffed toys.

Category 1051—Toy miniature movie projectors and toy cameras.

Examples of articles included are:

- Toy slides.
- Toy movie projectors.
- Films for toy projectors.
- Toy cameras.

Category 1052—Box goods.

Examples of articles included are:

- Games.
- Kindergarten materials.
- Paint sets.
- Crayons.
- Coloring books.
- Cut outs.
- Clay.
- Blocks.

Category 1053—Toy phonographs, toy musical instruments, and musical toys.

Examples of articles included are:

- Toy phonographs.
- Toy drums.
- Toy horns.
- Musical tops.
- Musical toys.

Category 1054—Electric trains and accessories.

Category 1055—Construction toys and scientific toys.

Examples of articles included are:

- Chemical sets.
- Scientific toys.
- Construction toys.

Category 1056—Toy guns and related items.

Examples of articles included are:

- Toy guns.
- Toy pistols.
- Toy holsters.

Category 1057—Masks and masquerade outfits.

This category does not include cowboys', soldiers' sailors' firemen's, and related suits.

Category 1058—Plastic and rubber toys.

This category includes all plastic and rubber toys. Not included, however, are infant's novelties such as rattles, teethingers, and pacifiers.

Category 1059—Large juvenile toys.

Examples of articles included are:

- Pool tables.
- Blackboards.
- Hobby horses.
- Shooflies.

Category 1060—Wheel toys and sleds.

This category does not include bicycles.

Examples of articles included are:

- Doll carriages.
- Velocipedes.
- Tricycles.
- Wagons.
- Scooters.
- Autos.
- Hand cars.
- Sleds.

Category 1061—Wood and hobby toys.

Examples of articles included are:

- Pre-school toys.
- Pull toys.
- Doll houses.
- Doll house furniture.
- Aeroplane kits.
- Kites.

Category 1062—Small metal toys.

Examples of articles included are:

- Mechanical toys.
- Mechanical trains and accessories (non-electric).
- Metal doll houses.
- Service stations.
- Cast iron toys.

Category 1063—Athletic toys.

Category 1064—Toy housewares.

Examples of articles included are:

- Toy laundries.
- Toy cleaning equipment.
- Toy cooking and tableware items.

GOR 5—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER DURABLE GOODS AND RELATED COMMODITIES

ADDITIONAL SUSPENSION OF SOFT-SURFACE FLOOR COVERINGS AND RELATED COMMODITIES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this amendment to General Overriding Regulation 5, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 5, Revision 1, changes section 105 so as to suspend price controls on all soft-surface floor coverings; previously, this section suspended price controls on certain designated soft-surface floor coverings. The additional items suspended include cotton tufted carpets and rugs, hooked and braided rugs, grass rugs, and string rugs. Floor coverings made of rubber, linoleum, asphalt, plastic and similar materials are not suspended.

This amendment also suspends price controls on all rug and carpet linings, pads, and cushions, except those made wholly of rubber. In addition, since many soft-surface rugs are manufactured and sold in conjunction with toilet lid covers made of the same material, this amendment suspends soft-surface rug and toilet lid cover sets, and separate soft-surface toilet lid covers.

As changed by this amendment, section 105 suspends all articles in CPR 7 retail categories 801, 802, 803, 803A and 803B, and many of the articles in category 803C. However, the suspension of these articles is not limited to sales at retail; it applies to all sales of these articles.

This action is taken in line with the policy of suspending or otherwise relaxing price controls on commodities whose selling prices are substantially below ceiling prices and are not expected to reach ceiling prices in the foreseeable future. In the judgment of the Director, price controls on the commodities covered by this amendment are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. However, all records which were required to be prepared and preserved under applicable ceiling price regulations in effect prior to this suspension must continue to be preserved.

Surveys conducted by the Office of Price Stabilization indicate that current manufacturers' selling prices of the commodities covered by this amendment are approximately 23 percent below ceilings, and that retail prices are approximately 7 percent below ceilings. Supply and demand of these commodities appear generally to be in reasonable balance. Current inventories are believed to be adequate to meet any foreseeable increase in demand. In addition, sufficient capacity and material are available to expand production above the levels currently planned. Thus, there does not appear to be any likelihood of rapid or

significant rises in prices in the foreseeable future.

The Office of Price Stabilization will maintain a composite index of manufacturers' prices of soft-surface floor coverings, including those suspended by this amendment as well as those previously suspended. Taking the January 1951 price level as 100, the index puts the present price level at 82.

The Director may at any time terminate or modify this suspension if he determines that such action is necessary in the interests of the stabilization program. In any event, this suspension will be terminated when the composite index reaches the figure of 88.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Section 105 of General Overriding Regulation 5, Revision 1, is amended to read as follows:

SEC. 105. Floor coverings and related commodities. The following floor coverings and related commodities:

Soft-surface floor coverings.

All rug and carpet linings, pads, and cushions, except those made wholly of rubber.

Soft-surface rug and toilet lid cover sets, and separate soft-surface toilet lid covers.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective January 29, 1953.

GOR 14—EXCEPTED SERVICES

NURSES' REGISTRIES—PUBLIC UTILITY PAY STATIONS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 36 to General Overriding Regulation 14 is hereby issued.

STATEMENT OF CONSIDERATIONS

In continuance of the policy of the Office of Price Stabilization to concentrate its efforts within major areas affecting the cost of living, business costs, and the defense program, this amendment extends the coverage of General Overriding Regulation 14 to exempt various services which do not exert a significant effect upon the cost of living of the average American family or business costs and the continued control of which

involves administrative difficulties which are disproportionate in relationship to the value of such control to the stabilization program. Included in this amendment are nurses' registries and fees paid by public utilities to their authorized pay stations.

Nurses and nursing homes have already been decontrolled. Further, the dues and fees of non-profit associations, where such dues and fees are not in whole or in part charged for the rendering of a specific service have been decontrolled and some nurses' registries fall within this exemption. Inasmuch as many of the professional service aspects of nursing have been decontrolled, administrative convenience dictates that all nurses' registries be removed from price control. It is not to be expected that this action will have a significant effect upon the cost of living, if any.

Fees and charges paid by public utilities to their authorized pay stations are decontrolled because they are but an insignificant part of business costs and the administrative problems attendant upon control of this service outweigh the advantages of such control. The fees paid to pay stations for this service are small by comparison to the cost of the utilities if they were to maintain branch offices. Since utility rates are based upon the actual cost of operation, the maintenance of the pay stations in lieu of branch offices results in lower public utility rates to the consumer.

In the formulation of this amendment there was consultation with industry representatives, including trade association representatives to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 14, as amended, is further amended in the following respects:

1. The following new subparagraphs

(132) and (133) are added at the end of paragraph (a) of section 3:

(132) Nurses' registries.

(133) Fees and charges paid by public utilities to their authorized pay stations. (Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 36 to General Overriding Regulation 14 shall become effective January 29, 1953.

JOSEPH H. FREEHILL,
Director of Price Stabilization.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART C—NATIONAL SERVICE LIFE INSURANCE

PREMIUM RATES FOR TOTAL DISABILITY INCOME PROVISION

Section 8.99 is revised to read as follows:

§ 8.99 Premium rates for the total disability income provision. The following rates are for the inclusion of the total disability income provision in a National Service life insurance policy (participating plans only)

(a) Rates in table 1 apply whether the disability provision is added to new term insurance, renewed term insurance, or to term policies previously issued and in force. The age to be used to determine the total disability income provision premium is the same age used in determining the premium for the term insurance policy. This applies even though the total disability income provision is added after the date of issue or renewal.

EDITORIAL NOTE: The text of F. R. Doc. 53-679, appearing at page 479 of the issue for Thursday, January 22, 1953, was reproduced from an incorrect copy. The document should read as follows:

1. Pursuant to the authority of section 9 of the act of Congress approved June 7, 1924 (43 Stat. 655; 16 U. S. C. secs. 471, 505) the President by Executive Order No. 10403 of November 5, 1952 (F. R. Doc. 52-12011, filed November 5, 1952; 3:34 p. m.) and Executive Order No. 4503 of September 2, 1926, as amended by Executive Order No. 5761 dated December 16, 1931, established the Fort Missoula District of the Lolo National Forest consisting of a portion of the Fort Missoula Military Reservation in the State of Montana. Under the provisions of the Executive Orders, the Secretary of the Army and Secretary of Agriculture have promulgated general plans and rules and regulations governing the administration of this National Forest Unit. Copies of such general plans and maps delineating the Unit are in the possession of the Forest Supervisor and the Commanding Officer or military officer having jurisdiction. The rules and regulations are set forth below.

2. The following rules and regulations are hereby issued for governing the administration of the Fort Missoula District of the Lolo National Forest, hereinafter called the District:

a. The Department of Agriculture, through the agency of the Forest Service, will administer the District, in accordance with the laws of the United States applicable to the national forests, subject to the unhampered use by the Department of the Army of the affected property for purposes of national defense.

b. The use and occupancy of the lands and resources of the District will be under the control and jurisdiction of the Forest Service and applications with respect thereto will be filed with the District Forest Ranger or the Forest Supervisor having jurisdiction. Use and occupancy of the lands and resources of the District will be subject to contracts or leases executed or other commitments made by the Department of the Army prior to said Executive Orders and to the unhampered use by the Department of the Army of the affected property for purposes of national defense. Such use and occupancy by the Department of the Army will in nowise constitute grounds for damages for any reason or cause whatsoever and provisions to such effect will be inserted in all permits, leases, contracts or other instruments executed by the Department of Agriculture.

c. Except as herein provided and as may be otherwise provided by agreement of the Secretary of the Army and the Secretary of Agriculture, the rules and regulations applicable to the military establishment shall continue in full effect at all times and under all conditions upon all lands included in the Fort Missoula District of the Lolo National Forest.

d. These rules and regulations may be modified only with the concurrent approval of the Secretary of the Army and the Secretary of Agriculture.

e. The rules, regulations and general plans approved by the Secretary of War on August 31, 1926, and by the Acting Secretary of Agriculture on August 18, 1926, relating to the area covered by Executive Order No. 4503 approved September 2, 1926, as amended by Executive Order No. 5761 dated December 16, 1931, are hereby rescinded, and the rules and regulations herein stated shall govern the administration of the areas described in Executive Orders No. 4503, as amended by Executive Order No. 5761 dated December 16, 1931, and 10403.

Approved: December 3, 1952.

ALASKA STEAMSHIP CO.

NOTICE OF HEARING ON APPLICATION TO
BAREBOAT CHARTER TWO GOVERNMENT-
OWNED, WAR-BUILT, DRY-CARGO VESSELS

Pursuant to section 3, Public Law 591, 81st Congress, notice is hereby given that an informal public hearing will be held at Washington, D. C., on February 16,

1953, at 10 o'clock a. m., in Room 4823, Department of Commerce Building, before Examiner A. L. Jordan, upon the application of Alaska Steamship Company to bareboat charter two (2) Government-owned, war-built, dry-cargo Liberty-type vessels, the SS George D. Prentiss and the SS John H. Quick, for employment in its service between United States Puget Sound ports to, from and within ports and places in the Territory of Alaska.

The purpose of the hearing is to receive evidence with respect to whether the service for which such vessels are proposed to be chartered is required in the public interest and is not adequately served, and with respect to the availability of privately owned American-flag vessels for charter on reasonable conditions and at reasonable rates for use in such service. Evidence also will be received with respect to any restrictions or conditions that may under the statute be included in the charter if the application should be granted.

All persons having an interest in the application will be given an opportunity to be heard if present.

The parties may have oral argument before the examiner immediately following the close of the hearing, in lieu of briefs, and the examiner will issue a recommended decision. Parties may have seven (7) days or such shorter time as may be agreed to at the hearing within which to file exceptions to, or memoranda in support of, the examiner's recommended decision, but the Board reserves the right to determine whether oral argument on exceptions will be granted and whether briefs in connection therewith will be received.

Dated: January 27, 1953.

By order of the Federal Maritime Board.

National Production Authority

[Suspension Order No. 53; Docket No. 42]

WINTER-SEAL CORP., ET AL.

A hearing having been held in the above-entitled matter on the 23d and 24th days of September 1952 before Harrison W. Ewing, a hearing commissioner of the National Production Authority, on a statement of charges made by Robert H. Winn, assistant general counsel of the National Production Authority, under authority of National Production Authority General Administrative Order 16-06, as amended (16 F. R. 8628) and Implementation 1 of said order and

The respondents, Winter-Seal Corporation, a corporation organized under the laws of Michigan, Don S. Rogers, Joseph T. Rosenberg, Irvin A. Rogers, Marshall Rogers, and Edward J. Kassak, having been duly apprised of the specific violations charged and of the rules and procedures which govern these proceedings and of the administrative action which might be taken herein, and

having filed their joint answer and explanation with respect to said charges, and the National Production Authority having been represented at said hearing and in this matter by Mr. Leonard J. Ganse of the Office of General Counsel of the National Production Authority, and by Mr. John F. McCrystal, Regional Attorney of the Cleveland Regional Office of the National Production Authority, and said respondents having been represented at said hearing and in this matter by Messrs. C. A. Tsangadas and Thomas Giles Kavanagh, Jr., Attorneys, of Detroit, Michigan; and

Due deliberation having been had, it is hereby determined as follows:

Findings of fact. 1. During the months respectively of January, March, April, May, and June, 1951, the respondent, Winter-Seal Corporation, used aluminum in the manufacture of storm windows and screens in excess of the quantities respectively permitted to be used for said purpose during said months by NPA Order M-7, as shown by the following tabulation:

	Permitted use	Excess use
	Pounds	Pounds
January 1951.....	88,510	7,343
March 1951.....	71,914	5,846
April 1951.....	71,914	7,662
May 1951.....	55,318	26,034
June 1951.....	55,318	33,543
Total excess use.....		80,428

2. During the third quarter of 1951, beginning July 1, 1951, the respondent, Winter-Seal Corporation, having an authorized production schedule by which it was permitted to use during said period in the manufacture of aluminum storm windows and screens 155,956 pounds of aluminum, used for said purpose 242,635 pounds, and thereby used 86,679 pounds of aluminum in excess of the quantity permitted by said authorized production schedule.

Through misunderstanding of the instructions promulgated by the National Production Authority as to the making of applications on Form CMP-4B for allotments of aluminum for said third quarter of 1951, the respondent, Winter-Seal Corporation, in filing its application for this quarter, erroneously stated its requirements for the quarter at 55,000 pounds per month (equaling 165,000 pounds per quarter) although the base use to which it was entitled under NPA Order M-7, the volume of its business, and the instructions promulgated by the National Production Authority, entitled it to request an allotment of at least 110,000 pounds per month (330,000 pounds per quarter). On its CMP-4B application for this quarter it received an allotment of 80,190 pounds of aluminum. If its requirements had been correctly stated, it would presumably have been allotted exactly double that amount, or 160,380 pounds. Promptly after receiving its allotment on this application, respondent informed the allotting authority of this error in its application, and both by letter and by supplemental application requested an additional allotment to correct the same. It then re-

ceived assurances from responsible officials of the allotting authority which led it to believe that a sufficient additional allotment would be made to remedy said error. However, said supplemental application was eventually denied on the ground that the available supply of aluminum was insufficient to permit an additional allotment. Respondent's reliance on the assurances which led it to expect that an additional allotment would be made contributed to its use of aluminum during this quarter in excess of its said authorized production schedule.

3. During the fourth quarter of 1951, beginning October 1, 1951, the respondent, Winter-Seal Corporation, having an authorized production schedule by which it was permitted to use during said period in the manufacture of aluminum storm windows and screens 86,814 pounds of aluminum, used for said purpose 294,775 pounds, and thereby used 207,961 pounds of aluminum in excess of the quantity permitted by said authorized production schedule.

Respondent's allotment for this quarter was originally made as an advance allotment on its application for the third quarter. This advance allotment was later decreased by a CMP-11 dated September 8, 1951. The balance left after this reduction was cancelled by a CMP-11 dated November 21, 1951. Respondent's final allotment for this quarter was made by a CMP-10 dated December 18, 1951, and amounted to 7,745 pounds. This amount was evidently calculated from the erroneous requirement of 55,000 pounds per month stated by the application for the third quarter, notwithstanding that before this CMP-10 was issued, the allotting authority had been informed by respondent's supplemental application for the third quarter, by its application for the fourth quarter, and by its letters accompanying these applications, that respondent's requirements had been erroneously stated in the original application for the third quarter, that its base use was 110,000 pounds per month, and that its requirements exceeded that amount. If this CMP-10 allotment had been calculated upon respondent's base use and requirements as stated by its corrected applications and accompanying letters, respondent would presumably have been allotted at least an additional 7,745 pounds; that is, a total of 15,490 pounds.

4. During the first quarter of 1952, beginning January 1, 1952, the respondent, Winter-Seal Corporation, having an authorized production schedule by which it was permitted to use during said period in the manufacture of aluminum storm windows and screens 163,352 pounds of aluminum, used for said purpose 365,025 pounds, and thereby used 201,673 pounds of aluminum in excess of the quantity permitted by said authorized production schedule.

5. Prior to the investigation on which these charges are based, respondents had not maintained records sufficient to meet the requirements of CMP Regulation No. 1. The evidence indicates that the failure to keep such records resulted from lack of understanding of that part of the regulation. Prior to the date of hearing,

respondents had established, and at the date of hearing they were maintaining, a system of records which apparently complied with the regulation.

6. (a) The respondent, Edward J. Kassak, supervised and directed the excess use of aluminum shown by the first finding of fact.

(b) The evidence fails to show that any of the other four individual respondents directed or supervised the excess use of aluminum shown by this finding.

(c) All of the individual respondents had a part in supervising and directing the excess use of aluminum shown by the second, third, and fourth findings of fact.

Conclusions. 1. During the months respectively of January, March, April, May, and June, 1951, the respondents, Winter-Seal Corporation and Edward J. Kassak, its general superintendent, violated NPA Order M-7, as successively amended and effective during each of said periods by using in the manufacture of aluminum combination storm windows and screens, in excess of the quantities permitted by said order to be used for that purpose during said months respectively, the quantities of aluminum shown by the following tabulation:

Period	Permitted use	Actual use	Excess use
	Pounds	Pounds	Pounds
January 1951.....	88,510	25,853	7,343
March 1951.....	71,914	77,769	5,846
April 1951.....	71,914	79,576	7,662
May 1951.....	55,318	81,353	26,034
June 1951.....	53,318	83,892	30,574
Total excess use.....			89,423

2. During the third quarter of 1951, the respondents, Winter-Seal Corporation, Joseph T. Rosenberg as vice president of said corporation and individually, Irvin A. Rogers as treasurer of said corporation and individually, Don S. Rogers as secretary of said corporation and individually, and Edward J. Kassak as general superintendent of said corporation and individually, violated National Production Authority CMP Regulation No. 1, as originally enacted and as later successively amended during said period, by using, in the manufacture of aluminum combination storm windows and screens, 86,679 pounds of aluminum in excess of the quantity authorized to be used for that purpose during said period by its authorized production schedule, to wit, 155,956 pounds; that is, by using for said purpose during said period a total of 242,635 pounds of aluminum.

3. During the fourth quarter of 1951, the respondents, Winter-Seal Corporation, Don S. Rogers as secretary of said corporation until about December 11, 1951, and thereafter as president of said corporation and individually, Joseph T. Rosenberg as president of said corporation and individually, Irvin A. Rogers as treasurer of said corporation and individually, Marshall Rogers as secretary of said corporation from and after his appointment to that office on or about December 11, 1951, and individually, and Edward J. Kassak as general superintendent of said corporation and individually, violated National Production Au-

thority CMP Regulation No. 1, as successively amended and in force during said period, by using, in the manufacture of aluminum combination storm windows and screens, 207,961 pounds of aluminum in excess of the quantity authorized to be used for that purpose during said period by its authorized production schedule, to wit, 86,814 pounds; that is, by using for said purpose during said period a total of 294,775 pounds of aluminum.

4. During the first quarter of 1952, said respondents, Winter-Seal Corporation, Don S. Rogers as president of said corporation and individually, Joseph T. Rosenberg as vice president of said corporation and individually, Irvin A. Rogers as treasurer of said corporation and individually, Marshall Rogers as secretary of said corporation and individually, violated National Production Authority CMP Regulation No. 1, as successively amended and in force during said period, by using, in the manufacture of aluminum combination storm windows and screens, 201,673 pounds of aluminum in excess of the quantity authorized to be used for that purpose during said period by its authorized production schedule, to wit, 163,352 pounds.

5. In the opinion of the hearing commissioner, it would be inequitable to include in the quantity of aluminum for which recoupment is to be required herein the 80,190 pounds which respondents used during the third quarter of 1951, as shown by the second finding of facts, in the expectation that the respondent, Winter-Seal Corporation, would be given an additional allotment of that amount; and would similarly be inequitable to include in such order for recoupment the 7,745 pounds which was erroneously withheld from this respondent during the fourth quarter of 1951, as shown by the third finding of facts.

The amount for which recoupment is to be ordered is accordingly fixed at 488,806 pounds.

In order to correct the unauthorized use of aluminum found herein, and in order to prevent future violations of National Production Authority regulations and orders by the respondents,

It is accordingly ordered. 1. That all allocations and allotments of aluminum under the control of the National Production Authority be withdrawn and withheld from the respondent, Winter-Seal Corporation, its successors and assigns, and from all individual respondents herein as officers of said corporation and individually, until the quantity of aluminum thus withheld and recouped by the National Production Authority amounts to 488,806 pounds.

2. That all priority assistance be withheld from said Winter-Seal Corporation and from all individual respondents herein until recoupment shall have been completed, as provided in the preceding paragraph, in the amount of 488,806 pounds.

Issued at Cleveland, Ohio, this 13th day of January 1953.

HARRISON W. EWING,
Hearing Commissioner.

Amdt. 1]

DIRECTORS OF DISTRICT OFFICES, REGION I,
BOSTON, MASS.

REDELEGATION OF AUTHORITY TO ACT ON
APPLICATIONS FOR CEILING PRICES OF NEW
COMMODITIES BY MANUFACTURERS HAVING
ANNUAL SALES OF LESS THAN \$1,000,000
UNDER CPR 161

By virtue of the authority vested in the Director of the Regional Office of Price Stabilization, Region I, and pursuant to Delegation of Authority 75, Amendment 1 (17 F. R. 11764) this Amendment 1 to Redelegation of Authority No. 53 (17 F. R. 11178) is hereby issued.

Redelegation of Authority 53 is amended to read as follows:

1. Authority to act under sections 3, 4, 5, 6, 9 and 15 of CPR 161. Authority is hereby redelegated to the Directors of the District Offices of the Office of Price Stabilization, Region I, to process in the respects indicated herein ceiling price reports or applications for new commodities filed under CPR 161, by manufacturers whose gross sales for their last complete fiscal year of commodities manufactured by them were less than \$1,000,000, or by new manufacturers who do not expect their gross sales to exceed \$1,000,000 during their first complete fiscal year.

(a) To approve, or disapprove proposed ceiling prices for new commodities under sections 3, 4, and 5 of CPR 161,

(b) To issue letter orders as provided in section 6 of CPR 161, establishing ceiling prices of new commodities for which a ceiling price cannot be calculated under sections 3, 4, and 5 of CPR 161;

(c) To issue letter orders disapproving or reducing ceiling prices reported or proposed as provided in section 9 of CPR 161;

(d) To request additional information, as provided in section 15 of CPR 161, where applicants submit proposed ceiling prices for new commodities under sections 3, 4, 5, and 6 of CPR 161.

This Amendment 1 to Redelegation of Authority No. 53 shall take effect as of January 12, 1953.

[Ceiling Price Regulation 17, Section 11 (d),
Special Order No. 10]

**COWLITZ COUNTY, WASH., MARKETING
AREA**

**ADJUSTMENT OF TANK WAGON CEILING
PRICES**

Statement of considerations. This special order adjusts the ceiling prices for sales of heating oils (Kerosene, No. 1 and 2 Oils, Furnace Oil, Range Oil and Stove Oil) by tank wagon distributors in the Cowlitz County, Washington, marketing area.

The Office of Price Stabilization was requested to conduct a survey to determine whether increased costs have reduced the net margins of heating oil distributors in the Cowlitz County, Washington, marketing area below a point sufficient to maintain the level of earnings in the year ending May 31, 1950. The results of that survey show that an upward adjustment is necessary to bring earnings to that level.

There is a large number of heating oil sellers at the tank wagon level in this region and the need for relief is not uniform, but varies from marketing area to marketing area. Thus it is concluded that the adjustment must be on a marketing area basis, rather than on a region-wide basis. For the purpose of this special order the market area has been defined as the area within the boundaries of Cowlitz County, Washington.

The adjustment granted by this order does no more than bring earnings to the level of the year ending May 31, 1950. It is therefore consistent with the provisions of section 11 (d) of Ceiling Price Regulation 17.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to the provisions of section 11 (d) of Ceiling Price Regulation 17 and Delegation of Authority 72, it is ordered.

1. That the ceiling price of heating oil distributors in the Cowlitz County, Washington, marketing area for tank wagon sales of heating oils (Kerosene, No. 1 and 2 Oils, Furnace Oil, Range Oil and Stove Oil) to consumers shall be increased by \$0.004 per gallon. The Cowlitz County marketing area is defined as the area within the boundaries of Cowlitz County, Washington.

2. All provisions of Ceiling Price Regulation 17, except as inconsistent with the provisions of this order, shall remain in full force and effect as to the commodities covered by this order.

3. This order may be amended, modified or revoked at any time.

Effective date. This special order shall become effective on January 24, 1953.

[Docket No. 10336]

ALBUQUERQUE BROADCASTING CO. (KOB)

ORDER CONTINUING HEARING

In re application of Albuquerque Broadcasting Company (KOB), Albuquerque, New Mexico, Docket No. 10336, File No. BSSA-275; for extension of special service authorization.

The Commission having under consideration the request of Westinghouse Radio Stations, Inc. (WBZ) filed January 8, 1953, that the hearing in the above entitled matter be continued from January 21, 1953, to April 1, 1953, and the oral argument held upon such pleading;

It appearing, that it is inappropriate to postpone the commencement of the hearing herein for the period of time requested and that a "good cause" for same is not shown;

It appearing further, in view of the statements of counsel during oral argument, that a reasonable continuance beyond January 21, 1953, to make possible a simplification of the testimony and exhibits to be presented by the parties, would, in the final analysis, result in a conservation of time when the matter is brought to hearing and would reduce the size of the record;

It appearing further, that there is pending before the Commission the petition of American Broadcasting Company (WJZ) to revise the issues presently governing the proceeding, as set forth in the Commission's order of designation herein, and that action upon such petition is expected momentarily;

It appearing further, that a continuance of the hearing for a short period of time is warranted and would be in the public interest;

It is ordered, This 15th day of January 1953, that the request of Westinghouse Radio Stations, Inc. (WBZ) for a continuance of the hearing herein until April 1, 1953, is denied; and it is further ordered that the said hearing is continued to February 11, 1953.

FEDERAL POWER COMMISSION

[Docket No. G-1429]

PACIFIC NORTHWEST PIPELINE CORP.

NOTICE OF THIRD AMENDED APPLICATION

JANUARY 26, 1953.

Take notice that Pacific Northwest Pipeline Corporation (Applicant) a Delaware Corporation, 774 M & M Building, Houston, Texas, filed on January 16, 1953, a third amended application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission pipeline facilities hereinafter described.

No. 20—3

Applicant proposes to transport natural gas for resale or serve directly to the following cities and towns: Pocatello, Twin Falls, Boise, Caldwell, and Nampa in the State of Idaho; Pendleton, The Dalles, and Portland in the State of Oregon; Walla Walla, Spokane, Richland, Yakima, Longview, Kelso, Olympia, Tacoma, Seattle, Everett, Wenatchee, and Bellingham in the State of Washington.

Applicant also proposes to transport natural gas for delivery and sale for resale to Colorado Interstate Gas Company at a point on applicant's proposed main transmission line about 25 miles southwest of Green River, Wyoming; and applicant proposes to make some direct sales to certain industrial customers adjacent to its proposed pipeline system. For such purpose applicant proposes to construct and operate a natural-gas pipeline system consisting principally of approximately 1,466 miles of main transmission pipeline and 380 miles of lateral and spur pipelines, extending from a point near Ignacio, Colorado, to the various above cities and towns together with 16 compressor stations totaling 104,420 horsepower, and miscellaneous facilities. The proposed system is designed for a daily delivery capacity of 343,000 Mcf per day.

The estimated cost of the proposed facilities is \$186,000,000, including \$2,000,000 as working capital. The proposed financing includes the issuance of bonds, preferred stock, and common stock.

Additional and supplemental protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 14th day of February 1953. The application is on file with the Commission for public inspection. The public hearing in this proceeding, recessed on July 7, 1952, is reconvened to commence on February 16, 1953, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, Hurley-Wright Building, 1800 Pennsylvania Avenue NW., Washington, D. C.

TEXAS EASTERN TRANSMISSION CORP.

NOTICE OF PETITIONS

JANUARY 26, 1953.

Take notice that on January 13, 1953, Texas Eastern Transmission Corporation (Texas Eastern) and MidSouth Gas Company (MidSouth) each filed a petition to amend the Commission's order in the above-entitled matter issued on July 3, 1952. MidSouth requests that paragraph (B) (4) of such order be amended to provide that Texas Eastern sell and deliver under its SGS Rate Schedule not to exceed 5,000 Mcf of natural gas per day to MidSouth Gas Com-

pany instead of 6,513 Mcf as provided in the order issued July 3, 1952. Under the proposed amendment, MidSouth would not provide natural gas for service to the towns of Callon and Hampton, Arkansas, as provided in the order of July 3, 1952.

Texas Eastern requests that paragraph (B) (4) of such order be amended as requested by MidSouth and further requests that it be authorized to reserve for Arkansas Louisiana Gas Company a daily volume of 300 Mcf of gas to be used by the latter company to sell gas for resale in Hampton.

The petitions are on file with the Commission and open to public inspection. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., on or before the 14th day of February 1953.

[Docket No. G-1914]

TEXAS ILLINOIS NATURAL GAS PIPELINE CO.

NOTICE OF AMENDED APPLICATION

JANUARY 26, 1953.

Take notice that on January 12, 1953, Texas Illinois Natural Gas Pipeline Company (Applicant), a Delaware corporation with its principal place of business at 20 North Wacker Drive, Chicago 6, Illinois, filed a first amended application to its application filed in this proceeding on March 12, 1952, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of certain natural-gas transmission pipeline facilities, subject to the jurisdiction of the Commission, all as more fully described in such original application on file with the Commission and open to public inspection. Due notice of the filing of such original application has been given, including publication in the FEDERAL REGISTER on April 8, 1952 (17 F. R. 3070).

Applicant proposes to construct the following natural-gas transmission pipeline facilities:

(1) One (1) additional 2,000 BHP compressor unit at each of its existing compressor Stations Nos. 302, 304, 306, 308 and 310, or a total of 10,000 additional horsepower.

(2) Five (5) new compressor stations, to be designated as Stations Nos. 303, 305, 307, 309 and 311, in each of which six (6) 2,000 BHP compressor units will be installed, and one (1) new compressor station, to be designated as Station No. 301, in which five (5) 2,000 BHP compressor units will be installed, or a total of 70,000 additional horsepower.

(3) Five (5) new lateral pipelines and one (1) 16-inch loop pipeline extending from the existing main pipeline in Texas to sources of gas supply.

(4) A suspension-type bridge across the Mississippi River, on which will be placed two (2) 30-inch pipelines, to be located approximately at the point of

Applicant's authorized and existing underwater crossing of the river near Grand Tower, Illinois, together with a total of 1.18 of 30-inch pipeline connecting Applicant's existing 30-inch main natural-gas transmission pipeline and the two (2) 30-inch pipelines to be placed on the bridge.

(5) Meter and regulator stations, communication equipment, and other necessary and appurtenant facilities.

By means of such facilities, Applicant proposes to increase its pipeline system capacity from the presently authorized 374,000 Mcf per day to 504,000 Mcf per day, or a net increase of approximately 130,000 Mcf per day and to increase its presently authorized installed horsepower from an aggregate of 50,000 BHP to an aggregate of 130,000 BHP. Applicant proposes to sell the additional quantity of gas which will be available from its system as a result of the capacity applied for in this proceeding to the customers designated in orders of the Commission issued at Docket Nos. G-1246, G-1477, G-1669, G-1875, and G-2004, except for a daily quantity of 1,737 Mcf which it requests be deferred pending further order of the Commission.

The estimated total over-all capital cost of the proposed facilities is \$42,148,000, which is proposed to be financed from proceeds to be received from the issuance of bonds and common stock. Applicant states it contemplates the issuance of bonds and common stock in the ratios of 75 percent and 25 percent, respectively.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 14th day of February 1953. The amended application is on file with the Commission for public inspection.

EL PASO NATURAL GAS CO.

NOTICE OF APPLICATION

JANUARY 26, 1953.

Take notice that on December 30, 1952, El Paso Natural Gas Company (Applicant) a Delaware Corporation with its principal office in El Paso, Texas, filed an application with the Federal Power Commission for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of certain transmission pipeline facilities hereinafter described.

Applicant proposes the construction and operation of additional pipeline capacity, processing facilities, compressor station capacity and appurtenant facilities for: (1) The transportation of an additional 200,000,000 cubic feet of natural gas per day from the Permian Basin area in southeast New Mexico and west Texas and an additional 100,000,000 cubic feet per day from the San Juan Basin in northwest New Mexico and southwest Colorado to two points on the Arizona-California boundary near Topock, Arizona, and near Blythe, California, for sale to the Southern California Gas Company, the Southern Counties Gas Company of California, and the Pacific Gas and Electric Company which companies propose to transport the gas to points in California for resale; and (2) the transportation of an additional 100,000,000 cubic feet of natural gas per day from the Permian Basin for sale to Applicant's customers in west Texas, New Mexico, and Arizona at points on its existing pipelines extending from the Permian Basin area to the aforesaid points on the Arizona-California boundary.

The estimated cost of the additional facilities Applicant proposes to construct and operate is \$175,250,000, consisting principally of 1,040 miles of additional

Applicant proposes by means of the facilities covered by the application, as supplemented and amended, to transport and deliver gas to El Paso Natural Gas Company, in the amounts of 200 MMcf per day in the first year and 300 MMcf per day by the second year, at an interconnection with El Paso's 24-inch pipeline in Yoakum County, Texas. Under an agreement between Applicant and El Paso, included as a part of the third supplement and amendment filed herein on November 20, 1952, El Paso agrees to deliver to Applicant at its compressor station at Dumas, Moore County, Texas, the same quantities of gas delivered by Applicant near its Wasson compressor station in Yoakum County, Texas. The amended application eliminates the construction of, among other things, approximately 245 miles of 30-inch diameter pipeline proposed in the original application to extend from Applicant's proposed Hobbs station to the compressor of Northern Natural Gas Company at Skellytown, Carson County, Texas, and reduces the estimated cost of the project from \$58,180,000 to \$40,269,000. Applicant proposes to finance the cost of constructing the project by the sale of Applicant's debt and equity securities. Applicant has a contract with Northern under which Northern is to purchase the approximately 300 MMcf per day of gas proposed to be transported through the proposed pipeline.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 13th day of February 1953. The application, as supplemented and amended, is on file with the Commission for public inspection.

pipelines of varying dimensions and additional compressor station capacity of 161,860 horsepower. Applicant proposes to finance the additional facilities by the issuance of first mortgage bonds, sinking fund debentures, cumulative preferred stock, and convertible second preferred stock, and by advances from Pacific Gas and Electric Company, Southern California Gas Company, and Southern Counties Gas Company of California.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 14th day of February 1953. The application is on file with the Commission for public inspection.

TRANS-NORTHWEST GAS, INC.

NOTICE OF APPLICATION

JANUARY 26, 1953.

Take notice that on January 16, 1953, Trans-Northwest Gas Inc. (Applicant), a Washington corporation, 1224 Old National Bank Building, Spokane 1, Washington, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission pipeline facilities hereinafter described.

Applicant proposes to construct and operate 246 miles of main line and 275 miles of branch lines for the transportation of 105,000 Mcf of natural gas per day from a point on the International Boundary near Osoyoos, British Columbia, for: (1) Resale or serve directly the cities and towns of Omak, Okanogan, Grand Coulee, Medical Lake, Spokane, Deer Park, Chewelah, Colville, Soap Lake, Ephrata, and Moses Lake in the State of Washington; and Coeur d'Alene, Kellogg, and Wallace in the State of Idaho; and (2) direct sales to certain industrial customers from its proposed pipeline system in Washington and Idaho. Applicant proposes to extend its proposed pipeline from the aforesaid points in Washington and Idaho to a point on the International Boundary near Boundary, Stevens County, Washington.

Applicant proposes to import and transport its supply of natural gas from Westcoast Transmission Company, Limited, at the aforesaid point near Osoyoos, British Columbia, and it also proposes to transport and export 10,000 Mcf of natural gas per day to Inland Natural Gas Co., Ltd., at the International Boundary, Stevens County, Washington, for resale in the vicinity of Trail, British Columbia.

The estimated cost of the proposed facilities is \$19,765,480, including \$200,000 as working capital. The proposed financing includes the issuance of equity

securities to the extent of 25 percent and first mortgage bonds to the extent of 75 percent of the capital required.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 14th day of February 1953. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2967]

JOHN FOX

ORDER GRANTING APPLICATION TO ACQUIRE
COMMON STOCK OF TWO PUBLIC UTILITY
COMPANIES

JANUARY 26, 1953.

John Fox, a preferred stockholder of Pennsylvania Gas & Electric Corporation ("Penn Corp."), a registered holding company, having filed an application pursuant to sections 9 and 10 of the act with regard to the transactions therein set forth which are summarized as follows:

On December 15, 1952, the Commission entered its order pursuant to section 11 (e) of the act approving a plan for the liquidation and dissolution of Penn Corp. (Holding Company Act Release No. 11600) Said plan provides, inter alia, for the distribution to the holders of the preferred stock of Penn Corp. of cash and shares of the common stock of North Penn Gas Company ("North Penn"), a public utility subsidiary of Penn Corp., and of Crystal City Gas Company ("Crystal City"), a public utility subsidiary of North Penn.

John Fox as the owner of shares of the preferred stock of Penn Corp. proposes to acquire, upon the consummation of, and pursuant to the provisions of said plan, approximately 251,085 shares of the common stock of North Penn and 8,368 shares of the common stock of Crystal City, representing approximately 56 percent and 19 percent, respectively, of the voting securities of North Penn and Crystal City.

The application contains a commitment by John Fox that within one year from the consummation of the plan he will dispose of the shares of Crystal City to be acquired by him to non-affiliated interests and, pending such disposition, that he will not vote said shares. This commitment is also made on behalf of the family of John Fox and he has also agreed to use his best efforts to cause his business associates to make a similar disposition of any shares of Crystal City acquired by them and to refrain from voting said shares pending such disposition.

Due notice having been given of the filing of the application, and a hearing not having been requested of or ordered by the Commission; and the Commission

finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application be granted, effective forthwith, subject to the conditions stated below:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application be, and it hereby is, granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and to the further condition that the applicant shall, at least 10 days prior to disposing of any Crystal City stock owned by him or his family, give notice to the Commission of the intended disposition and the Commission shall not have advised the applicant within such 10 day period of any objection thereto.

By the Commission.
